Goopa, fellow 1UPers.

Wicket W. Warrick here. You remember Wicket, yes? Most important character in *Return of the Jedi*! **Hero of Rebellion**! Most Powerful Warrior in Super Return of the Jedi for Super NES! *Dangar Wicket!*

Well, as big game fan, Wicket wondering same thing everyone else is about **LEGO Star Wars II: The Original Trilogy** -- in game with more than 50 playable characters...will Wicket be one? Wicket's friends at **LucasArts** tease him! They say, "We give Wicket two to five characters per week to blog about, and Wicket find out if Wicket in game at end! Wicket get big scoop! *Yubnub!*" (That not a direct quote.)

Game not out till September 12...but Wicket patient! Wicket looking at bright side. Wicket will have many scoops! And guess what? Wicket SHARE

SCOOPS WITH FRIENDS! Here's how it work: Wicket shows zoom-in screenshot of character (perfect size for friends' 1UP pictures!), describe character, and ask trivia question about character. The first Wicket 1UP friend (**invite him now!**) to answer correctly in Comments gets to show WHOLE screenshot as 1UP desktop image before anyone else in galaxy! In universe, even!

Wicket lists winners here, after colon (Wicket love punctuation!) as long as they keep screenshot as 1UP desktop image: **Kernel_Kern, SeanXor, tyheck, jp-30, Barry, devusb, Z3phos, MasterMarcos7992, wicketfan**

Wicket also make club! It has all images and winners! **Join now!**

Sound *gunda*? In meantime, don't forget to send questions to Wicket about game! Title message ASK WICKET ANYTHING.

I'm currently playing: Star Wars Battlefront II, SW: Empire At War, Super Star Wars: Return of the Jedi ... [VIEW MY COLLECTION]

LEGO Star Wars II Character 19: Imperial Spy

Thumbs

Wicket typically have real problem with no *gunda* characters that make life hard for Wicket friends like Luke and Han. But Wicket just can't bring himself to hate Imperial Spy. For some reason, Wicket would rather hang out with Imperial Spy than a Jawa. Probably because Jawas filthy and disgusting. On the other hand, Imperial Spy have really big nose! It make Wicket laugh! It so big, it make some people call Imperial Spy "Long Snoot." But Wicket probably not call him Long Snoot. Imperial Spy not a nice guy, even though he look funny. He would probably shoot Wicket if Wicket called him Long Snoot. *Feech*.

Trivia: What Imperial Spy's real name? Spelling counts!

Wicket going to post this rule with every entry now because it important: Friends win

eating , playing star wars games (especially ones with Ewoks!) , spending time with Princess Kneesaa if Internet connection is down

Where I work:

Out here in the fields , Wicket works for his meals. He puts his back into his living. Or he lets Teebo do all work for him.

What I like to do:

Wicket like spending time with Princess Kneesaa. Almost as much as playing Star Wars games!

My Tastes:

Wicket tastes like chicken

LEGO Star Wars II Characters 17 and 18: Captain Antilles and Rebel Friend

Wicket about to introduce two characters at once! Can friends handle it?

Friends remember **Buck**? That not his real name, but Wicket rather call him that than "Rebel Trooper." Anyway, when Wicket wrote about Buck, Buck was character that friends played as in Story mode. That not the case any more!

Now, friends can play as Captain Antilles. Captain Antilles was master of Exalted One C-3PO! He must be very powerful! *Dangar Captain Antilles!*

Of course, friends can still play as Rebel Trooper. And Wicket would still rather call him Buck. But now there also the Rebel Friend! Rebel Friend like Rebel Trooper, except Rebel Friend wears red. To avoid confusion, Wicket reminds friends that Wicket a Rebel friend, but Wicket not a Rebel Friend. Yubnub for the technicalities of capitalization!

Trivia: What did Captain Antilles tell Nooch Vader the Rebels not intercept?

Wicket going to post this rule with every entry now because it important: Friends win screenshot by answering question correctly in comments and -- this important -- being Wicket's 1UP friend. So, **be Wicket's 1UP friend!**

Sandtroopers pretty much just **stormtroopers** that fight in desert. They wear backpacks that look like jetpacks but aren't jetpacks. Wicket not really sure what they do, but Wicket wants one! Sandtroopers also wear orange floppy things on their right shoulders. Wicket not really sure why sandtroopers wear orange floppy things on their right shoulders. What friends think?

Trivia: Sandtroopers ride animals that friends can ride in **LEGO Star Wars II!** What this animal called?
