Goopa, fellow 1UPers.

Wicket W. Warrick here. You remember Wicket as most important character of ***Return of the Jedi***, yes? *Dangar Ewok*!! Maybe you even experience his heroics on Super NES. There, Wicket starred as Most Powerful Warrior in **Super Return of the Jedi**! Yes? You play Wicket? Anyone? Anyone...? *Acha*...Wookiees get all attention. None left for Ewoks. *Kvark*!

Speak of games, Wicket loves ***Star Wars* Battlefront** and can't wait for ***Star Wars* Battlefront II**. It supposed to be nearly four times size of original game! *Beecha wawa*, that's big! Wicket blog most days until November 1, when game ships. LucasArts friends also give Wicket pretty pictures from the game they give no one else. (Wicket ask for lots of pictures of stormtroopers blowing up!!) Wicket also has facts and interviews no one else gets. They only here.

Wicket also answer questions about game and anything else. Wicket an expert on spear-making tips, love-life, and smashing large Imperial machines with logs. Write to Wicket with subject ASK WICKET ANYTHING.

And ever since Wicket's friends in Rebel Alliance, **Cindel**, and **Noa** deserted him, Wicket been starving for human companionship. Won't you please **be Wicket's friend**? *Gunda*!!!

I'm currently playing: **Super Star Wars: Return of the Jedi, Star Wars Battlefront**

Wicket fine. He just chillin'. He have lots of questions to answer! *Yubnub!*

Kernel_Kern: Hey, I was wondering if you could tell me how special ships like Jedi starfighters will work. Like do you have to be a Jedi at the time to access them, or will they be ready in the hangar for all characters to use?

Where I work: **Out here in the fields**, **Wicket works for his meals. He puts his back into his living. Or he lets Teebo do all work for him.**

What I like to do: **Wicket like spending time with Princess Kneesaa. Almost as much as playing Star Wars games!**

My Tastes: **Wicket tastes like chicken**

All ships show up in hangar for anyone who wants to use them. Then friends fly them into space! Then starcruisers...crash!!!

Eagleleader: I was wondering if my fav map was still in the game, that being Bespin (carbon-freezing map). Because from what I hear, it was not mentioned.

Wicket sorry to disappoint, but *den*, Bespin not in game. But new game four times as big as first one! *Beecha wawa*, that still really big!

Legolas9190: I've heard this before, and I'd like to know what truth is in it. In Instant Action, is the reinforcement count settable from 100-1500?

Star Wars Battlefron...

SWBF2 Hype!!!

~STAR WARS~

See all 4 Clubs

Wicket bad with numbers, so he ask Associate Producer James Morris to help with question. James Wicket's friend! *Teeha*, James! This what James said:

"You don't set the reinforcement count per se, but in Instant Action you can set the percentage of reinforcements in a battle. So if a map defaults to 250 reinforcements per team, you could set it to 10% for a quick match of 25 vs. 25 or turn it up for a longer battle. You can do it in single player and multiplayer. Capture the Flag and Assault point goals can be set directly by the player."

Ewok_Emperor: I've heard everyone talking about playing a demo for Battlefront II. Where can I go to get the demo?

Friends can get demo on demo discs in Official Xbox Magazine and Official U.S. PlayStation Magazine. Wicket also hears an Xbox demo will be on Star Wars: Episode III DVD on November 1. Very gunda bonus content! For PC, friends can join beta at FilePlanet.com.

5591killalotsol: Wicket, I don't understand. How do I enter to win a free game?

It very easy. Just join **this club**. Then put **Battlefront II** desktop image in blog. That all! *Acha*?

Xantores: So all of the 50 winners will be picked on one day?

Chak, they will! 1UP and Wicket's **LucasArts** friends choose them randomly on or around Nov. 8.

Cloudstarx: My dog looks like you. So I pet it extra long time. Yub Yub! I just wanna spend a private night in the bacta tank with you, Wicket. Oh yeah and how in the Mustafar do I post my wallpaper to be eligible for the contest. OOPS! Gotta go, it's 20 past! Time for my hourly Return of the Jedi viewing. "Only the scenes of you, Wicket." Ayeeeh!!!!!!!!!!

What "Yub Yub" mean? Cloudstarx not speak very good Ewok. He also creeps Wicket out. Wicket has a stalker! *Danvay*, Wicket! But Wicket answer question anyway because other friends ask, too. To post wallpaper, just go **here**. Then find button that says "Upload Destop Image." Then upload desktop image. It very easy!

odyate: I was wondering if NASCAR was big out in Endor. I'm a huge NASCAR fan and want Rusty Wallace will win the championship. What do you think?

NASCAR not very big on Endor, but Wicket still a big fan! *Yubnub*, Rusty Wallace! But Wicket still partial to Dale Jarrett. Dale Jarrett's car have Jedi

car in April! It look very gunda (especially with M&M's!). Wicket not so sure about Elliott Sadler, though. He drive dark side car! *Danvay*, Dale Jarrett! Wicket suggests Rusty Wallace drive car with Wicket on it. Then he win in very last racing season! *Treek*, Rusty, *treek*!

Ewok_From_Holland: Will we be able to play levels with only heroes in it, so it's like one big hero battle?

Chak, you can! Wicket will share more information later, but first look at this!!! *Yubnub*!!!

Hylian_Knight: I am confused about players being Jedi. Will everyone be able to run around as Luke or will it only be the topped-ranked player on the team that has that option?

open in browser PRO version Are you a developer? Try out the HTML to PDF API pdfcrowd.com

Gunda question! Depends on mode. In Instant Action, host determines. It can be best player, random player -- even worst player! *Yubnub!* That means Wicket has chance to be Jedi! In Rise of the Empire, friends complete certain objective, then can be Jedi. In Galactic Conquest, friend must choose Jedi as a bonus.

Aun'Vre'Erandir: I was wondering if it's true that the awesome Jedi Knight Kit Fisto is in Battlefront II, as he is on the front cover. Some people say he is, others say he isn't. Would you mind clarifying it for me?

Den. No Kit Fisto. Wicket not care because, **as Wicket say before**, amphibians freak Wicket out.

kyosti_progamer: So who are you exactly? Do you work at Pandemic and make *Star Wars* Battlefront II? Are you the developer of it?

Wicket is Wicket. Wicket just an Ewok.

snowstorm077: Do you have any info on the CIS, Rebels, and Empire sixth class like the weapons and special abilities?

Chak, Wicket does! But Wicket too lazy to tell you everything. He just point you **here**. And show you these!

Drizzt_X: Is Galactic Conquest playable with multiple players via PC LAN?

Den, not on PC. Galactic Conquest only multiplayer in console splitscreen.

Theta_128: *Yubnub*, Wicket! By the way, can you tell me what that means?

Yubnub is Wicket's favorite word! It mean "hooray!" or "celebrate!". *Yubnub* for *yubnub*!

!Darth_Maul_Zabrak!: What are all of Darth Maul's abilities and tricks?

open in browser PRO version Are you a developer? Try out the HTML to PDF API pdfcrowd.com

Darth Maul very fast! *Danvay*, Republic! He also throws lightsaber and uses Force to pull enemies close! *Danvay*! *Danvay*! *Danvay*!

Mark_D._Stroyer_: Do you know if the space battles will be for each planet, or is it just Coruscant? Also, what hero do you want to play the most?

Friends can see space battles above each planet in Galactic Conquest. There only a few in Instant Action, and a few more in Rise of the Empire.

Jemison: How come Hoth is the last battle of the game for the 501st? How come they don't include the space battle over Endor, and Endor itself?

open in browser PRO version Are you a developer? Try out the HTML to PDF API pdfcrowd.com

Rise of the Empire campaign just Empire propaganda. They not show Battle of Endor because Ewoks kicked their butt! *Dangar Ewok!!*

dub_edition: Don't get mad, but who's Princesss Kieanna?

Wicket never heard of Princess Kieanna. But Princess Kneesaa... Wicket misses her very much. *Feech.*

Giant-Ewok-Man: Have you tried buying Kneesaa flowers yet?

Den, Wicket not try that yet. But Wicket always value advice of big Ewoks. Wicket knows Giant-Ewok-Man almost five feet tall! *Beecha wawa!* Maybe Wicket try that....

Wicket knows you been waiting for this! Wicket take all questions friends ask (all good ones, anyway) and answer them here! Yubnub! Wicket so helpful!

Jemison: Can you tell me anything you know about what Hoth is going to be like in Battlefront II?

open in browser PRO version Are you a developer? Try out the HTML to PDF API pdfcrowd.com

Wicket: Hoth cold! Wicket not like cold Hoth. But Wicket brave, so he found out for Jemison. *Dangar Ewok!!* Wicket knows in Instant Action - Conquest, Hoth very similar to Hoth in **first Battlefront**. But **Hunt mode** where mean fuzzy wampas hunt nice Rebels! *Danvay*, Rebels! And in Rise of Empire mode, Hoth play different because evil **501st** has objectives against gunda Rebels. It last level of game!

Xantores: Wicket, will this game be coming out for PSP?! And if it's not, you should talk to LucasArts and tell them that it needs to be on it! Because right now that's the only system I own.

Wicket way ahead of you! Wicket tell friends at LucasArts months ago that game should be on PSP. And LucasArts always listen to Wicket! Except when it comes to Wicket's Ewok game idea. All Ewoks, all the time! All *Wicket*, all the time! They say that not going to happen. *Feech!* Anyway, Wicket got

new PSP screens just for Xantores.

daniel564: How many players will it be online? How many players can play splitscreen? How much will it cost?

64 PC, 32 Xbox, 24 PS2, 4 PSP. Sound *gunda*? And it not cost anything extra! Only difference is Xbox

open in browser PRO version Are you a developer? Try out the HTML to PDF API pdfcrowd.com

Live subscription, but that all Xbox games.

theasp18: Wicket, I had a stuffed toy of you back in the late '80s that I gave to my dog. She chewed you up pretty good. I hope you don't mind. I think she worshipped you the way she guarded the toy. Is *Star Wars* Battlefront II going to come out for Xbox 360?

Acha, Wicket knows he tastes good. Wicket can't blame human pet for wanting to eat him. As long as she not eat real Wicket, Wicket fine with it. To answer theasp18's question, *den*, ***Star Wars* Battlefront II** only coming out for Xbox, PS2, PC, and PSP. Microsoft delaying Xbox 360 release on Endor anyway because of "logistics" (lame!), so Wicket really not care.

odytae: Hi Wicket! I was just wondering... who do you think is the best Jedi? I think it is Luke. I can't wait to play as him in *Star Wars* Battlefront II.

open in browser PRO version Are you a developer? Try out the HTML to PDF API pdfcrowd.com

Wicket would have said Luke long time ago. But Luke never calls or writes. It makes Wicket sad. Wicket like Yoda best now, because he short and talk funny. No speak *gunda* Basic, he do! Wicket speak better! Though not as well as Kneesaa, Wicket realizes. **Oh, Kneesaa**... Anyway... *Chak*, Yoda Wicket's favorite Jedi. And Yoda dead, so Wicket not expect him to call or write Wicket anyway.

shawnpederson: What are the challenges in balancing work and personal life?

Work? What work? Wicket just lets **Teebo** do work for him. When Teebo says, "Do your own work!" Wicket laughs because he knows Teebo only kidding. Teebo so funny! *Yubnub!* So Wicket just have a personal life. And Wicket just play **Battlefront** all day, especially now that Kneesaa left him.

ilovepsm: How many levels are in the new game?

open in browser PRO version Are you a developer? Try out the HTML to PDF API pdfcrowd.com

Depends on mode and if ilovepsm talks about console and PC version or PSP version. Console and PC versions have more than 20 total levels. *Beecha wawa*, that's a lot! PSP have 13. Still pretty *gunda*!

general_grievous14: In *Star Wars* Battlefront II, for playing as wampas, Ewoks, Gungans, etc... Is it only in multiplayer?

You 14th General Grievous?! Wicket impressed! But Wicket also a little scared, so he knows he must answer question correctly. *Yut ehda*, general_grievous14 can play Hunt mode in Instant Action. Can play Instant Action either online or by self!

open in browser PRO version Are you a developer? Try out the HTML to PDF API pdfcrowd.com

ninjapirate52: Heard bout you in the new PSP game's article. Wondering if you would hunt your own.

Wicket only hunt Ewoks in PSP version. It only way to beat Imperial Enforcer challenge, and Wicket never play game unless he can beat it! *Dangar Ewok!!* Still, it makes Wicket feel sick to stomach.

maddness209: Is the mode of Hunt just for PSP, or will it be on the PS2, Xbox, and PC? If not, it will be no good.

Chak. All of Wicket's screenshots of Hunt mode from PC and Xbox versions, but it on PS2, too. Wicket say "2" and "too"! Wicket love homophones! *Yubnub!*

darthcrasco: I am confused with how the new Galactic Conquest will work could you find out.

Wicket not have time to get into it now. But it much bigger! *Yubnub!* Wicket friend Shara touched on it in last post. Wicket will have big entry about it soon. *Acha*?

Darth 100 Watts: Hello! I have a stormtrooper locked in my basement, and I am wondering, should I cook him in his armor, or remove it first??? I am afraid my crab-leg cracker is a little small. And how much butter will be necessary?

It depends. Wicket suggest cooking in armor for best taste. But that melts armor, too, and armor makes great xylophone piece. So if you a musician, might be better to strip armor first. Either way, *chak*, Wicket recommends lots of butter. Actually, Wicket prefers margarine since it low-fat and

open in browser PRO version Are you a developer? Try out the HTML to PDF API pdfcrowd.com

Wicket trying to watch his weight.

EGM_Ford: So, who do you think will win the World Series this year?

Wicket was just discussing with **Paploo**. Wicket and Paploo very big baseball fans! Wicket and Paploo wish baseball more popular out here. Then there could be Galaxy Series! Or Universe Series! It get big!

Acha, on one side, there are White Sox. Wicket and Paploo very surprised that White Socks beat Angels. Ewoks hear stories of Angels -- they live on the moons of Iego, Ewoks think. How Angels lose? How White Sox so good when socks not even very practical piece of clothing? Wicket not understand, but he realizes they very *gunda*. That why Paploo pick them to go all the way.

In National League, Wicket and Paploo still waiting to see who wins -- Wicket and Paploo split on prediction. Paploo like wildlife, so he picks Cardinals. Wicket likes wildlife, but cardinals not look like real wildlife to Wicket -- he thinks Earth friends make them up. They not real like **Yuzzums and blase tree goats**. Wicket picks Astros because Wicket like star on hat. *Danvay*, Cardinals!

Wicket not agree that White Sox win! White Sox *gunda* team, but again, Ewoks not wear socks. Wicket thinks it impossible for them to win all. And star on hat make all difference. *Danvay*, White Sox!
